CONTENTS VOLUME 36

NUMBER 1

L. C. Rai, Y. Husaini and N. Mallick	1	Physiological and biochemical responses of *Nostoc linckia* to combined effects of aluminium, fluoride and acidification
R. A. Armstrong and S. N. Smith	13	Do the lichens *Xanthoparmelia conspersa* (Ach.)Hale and *Rhizocarpon* Ram. em. Th. Fr. subgenus *Rhizocarpon* utilise exogenous carbohydrates for radial growth?
K. Mičieta and G. Murin	21	Microspore analysis for genotoxicity of a polluted environment
A. Gzik	29	Accumulation of proline and pattern of α-amino acids in sugar beet plants in response to osmotic, water and salt stress
A. L. Viles and R. N. Reese	39	Allelopathic potential of *Echinacea angustifolia* D.C.
G. S. Rodrigues, S. A. Madkour and L. H. Weinstein	45	Genotoxic activity of ozone in *Tradescantia*
M. W. van Iersel and D. M. Oosterhuis	51	Drought effects on the water relations of cotton fruits, bracts, and leaves during ontogeny
B. R. Bondada, D. M. Oosterhuis, J. B. Murphy and K. S. Kim	61	Effect of water stress on the epicuticular wax composition and ultrastructure of cotton (*Gossypium hirsutum* L.) leaf, bract, and boll
K. A. Fayez and U. Kristen	71	The influence of herbicides on the growth and proline content of primary roots and on the ultrastructure of root caps
J. Garty, Y. Steinberger and Y. Harel	83	Spatial and temporal changes in the concentration of K, Na, Mg and Ca in epilithic and in decomposing detached thalli of the lichen *Ramalina maciformis* and its potential role in the cycling of these elements in the Negev Desert
L. C. Rai, P. K. Rai and N. Mallick	99	Regulation of heavy metal toxicity in acid-tolerant *Chlorella*: Physiological and biochemical approaches
A. J. Rowland-Bamford, J. T. Baker, L. H. Allen Jr. and G. Bowes	111	Interactions of CO_2 enrichment and temperature on carbohydrate accumulation and partitioning in rice
	125	Announcements

NUMBER 2

	127	Obituary
K. Ewing	131	Tolerance of four wetland plant species to flooding and sediment deposition
R. P. Sinha and D.-P. Häder	147	Response of a rice field cyanobacterium *Anabaena* sp. to physiological stressors
C. Wan, R. E. Sosebee and B. L. McMichael	157	Lateral root development and hydraulic conductance in four populations of *Gutierrezia sarothrae*
C. T. Liao and C. H. Lin	167	Photosynthetic responses of grafted bitter melon seedlings to flood stress
S. Ichikawa, I. Yamamoto, M. Murai and K. Watanabe	173	Fallout decay simulation experiments with the stamen hairs of stable and mutable *Tradescantia* clones
E. U. Kurczyńska, M. Bełtowski and W. Włoch	185	Morphological and anatomical changes of Scots pine dwarf shoots induced by air pollutants
E. R. Duke and D. C. Doehlert	199	Effects of heat stress on enzyme activities and transcript levels in developing maize kernels grown in culture
A. Wulff, S. Anttonen, W. Heller, H. Sandermann Jr. and L. Kärenlampi	209	Ozone-sensitivity of Scots pine and Norway spruce from northern and local origin to long-term open-field fumigation in central Finland
L. S. Evans, J. H. Adamski II and J. R. Renfro	229	Relationships between cellular injury, visible injury of leaves, and ozone exposure levels for several dicotyledonous plant species at Great Smoky Mountains National Park

NUMBER 3

H. Lin and L. Wu	239	Effects of salt stress on root plasma membrane characteristics of salt-tolerant and salt-sensitive buffalograss clones
J. P. Bennett, M. J. Dibben and K. J. Lyman	255	Element concentrations in the lichen *Hypogymnia physodes* (L.) Nyl. after 3 years of transplanting along Lake Michigan
I. Nijs, H. Teughels, H. Blum, G. Hendrey and I. Impens	271	Simulation of climate change with infrared heaters reduces the productivity of *Lolium perenne* L. in summer
M. Banerjee and D.-P. Häder	281	Effects of UV radiation on the rice field cyanobacterium, *Aulosira fertilissima*
S. A. Watmough and N. M. Dickinson	293	Variability of metal resistance in *Acer pseudoplatanus* L. (sycamore) callus tissue of different origins
B. L. McMichael, D. R. Upchurch and J. J. Burke	303	Soil temperature derived prediction of root density in cotton
B. T. Green, C. T. Wiberg, J. L. Woodruff, E. W. Miller, V. L. Poage, D. M. Childress, J. A. Feulner, S. A. Prosch, J. A. Runkel, R. L. Wanderscheid, M. D. Wierma, X. Yang, H. T. Choe and S. D. Mercurio	313	Phytotoxicity observed in *Tradescantia* correlates with diesel fuel contamination in soil
S. B. Idso, B. A. Kimball and D. L. Hendrix	323	Effects of atmospheric CO_2 enrichment on chlorophyll and nitrogen concentrations of sour orange tree leaves
J. E. Quisenberry and B. L. McMichael	333	Screening cotton germplasm for root growth potential
M. M. Blanke	339	Soil respiration in an apple orchard
R. Vidal, A. Gerbaud and D. Vidal	349	Short-term effects of high light intensities on soybean nodule activity and photosynthesis
	359	Erratum

NUMBER 4

M. W. Miller	361	Editorial—My last on the accuracy of reference citations (or, the agony/ecstasy processes—reader's choice!)
J.-P. Garrec and E. Renard	365	Absorption foliaire de l'aluminium: étude de la fixation et de la pénétration cuticulaire
Q. X. Wang, F. Zhang and D. L. Smith	377	Application of Ga_3 and kinetin to improve corn and soybean seedling emergence at low temperature
R. C. Sicher and D. F. Kremer	385	Rubisco activity is altered in a starchless mutant of *Nicotiana Sylvestris* grown in elevated carbon dioxide
G. E. Zuniga, M. Alberdi and L. J. Corcuera	393	Non-structural carbohydrates in *Deschampsia Antarctica* desv. from South Shetland Islands, maritime antarctic
X. L. Jin, D. J. Kushner and C. Nalewajko	401	Nickel uptake and release in nickel-resistant and sensitive strains of *Scenedesmus Acutus F. Alternans* (Chlorophyceae)
L. S. Evans, K. Albury and N. Jennings	413	Relationships between anatomical characteristics and ozone sensitivity of leaves of several herbaceous dicotyledonous plant species at Great Smoky Mountains National Park
A. K. Jäger, M. E. Light and J. Van Staden	421	Effects of source of plant material and temperature on the production of smoke extracts that promote germination of light-sensitive lettuce seeds
M. V. Sailaja and V. S. Rama Das	431	Leaf solar tracking response exhibits diurnal constancy in photosystem II efficiency
G. F. Sassenrath-Cole, G. Y. Lu, H. F. Hodges and J. M. McKinion	439	Photon flux density *versus* leaf senescence in determining photosynthetic efficiency and capacity of *Gossypium Hirsutum* L. Leaves
T. A. Day and S. M. Demchik	447	Ultraviolet-B radiation screening effectiveness of reproductive organs in *Hesperis Matronalis*
